

PLAN SUMMARY

The Provest 10 Principal Protection Plan is an annual regular savings plan that allows participants to accumulate a cash lump sum. Provest 10 Principal Protection Plan offers the benefit of investments funds which track the performance of the world's major stock market indices, with the safeguard of a minimum guaranteed return providing up to 125% of all contributions paid to maturity. The minimum savings amount required to open the plan is only \$2,400* per annum.

Provest 10 Principal Protection Plan is ideal for saving over the medium term. Participants need a disciplined approach to their savings and to ensure they make the most of this opportunity they should continue making contributions until the end of the selected term of the plan. The longer the term participants save the greater the opportunity for investment growth.

The Trust is administered by an independent Trustee – Sable Trust Ltd, an organization that is duly licensed and regulated by the Financial Services Commission in the BVI. The savings you accumulate are held in safe custody by the Union Bank of Switzerland (UBS) with headquarters in Switzerland and a presence in all major financial centers around the world.

- 125% of Regular Contributions at the end of year 10.

POTENTIAL FOR GROWTH

The participant illustration will show how much participants may get back based on assumed growth rates. The final value of the plan will be linked to the performance of the equity index(es) selected or up to 125% of contributions paid to maturity if this amount is higher³. This means participants will have 100% participation in the growth of the indices they select. However, the overall return of the plan will depend on a number of factors including:

- The amount invested
- How long the money is invested
- The performance of the index(es) selected
- Charges

FLEXIBLE PAYMENT OPTIONS

Participants can program payments monthly, quarterly, semi-annually, or annually. They can switch payment frequency and payment method at any time and also make pre-payments toward future contributions. Payments can be made via wire transfer, check, direct debit⁴, or major credit cards⁵. Participants can also set up automatic periodic premium payments with a credit card.

ADDITIONAL CONTRIBUTIONS

Can be made at any time⁶ to take advantage of favorable market conditions. The minimum amount is \$ 600*.

LOYALTY BONUSES⁷

Loyalty bonuses are credited to the plan to help savings grow faster. A loyalty bonus of 8% of the sum of all regular contributions made until year 10 will be applied to the plan at the end of year 10.

DEATH BENEFIT

On the death of the last surviving plan participant 101% of the plan's surrender value is payable once satisfactory notification of death has been received. During the first five years of the plan, the amount paid will be the greater of the sum of all contributions paid to the plan or 101% of the cash value of the plan. If the plan covers more than one participant, the company will pay out the death benefit upon the receipt of satisfactory notification of the deaths of all the plan participants. As the plan is in trust, the value will be paid to the trustees who will pay to the Beneficiary(ies) designated in the policy.

CHARGES

The Participant illustration shows the returns after all the charges are applied to the plan. Plan charges include a plan fee, an index spread fee, and an annual administration charge. Surrender charges will be equal to the sum of the annual administration charges due for the remaining contract years times a surrender factor, at the time of surrender.

TERMINATION AND REINSTATEMENT
